ANNUAL REPORT FOR IIC 7.0 SAL INSTITUTE OF TECHNOLOGY & ENGINEERING RESEARCH

A. Ministry of Human Resource Development (MHRD), Govt. of India has established 'MHRD's Innovation Cell (MIC)' to systematically foster the culture of Innovation amongst all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas while they are in formative years. MIC has envisioned creation of 'Institution's Innovation Council (IICs) across selected HEIs. A network of these IICs will be established to promote innovation in the Institution through multitudinous modes leading to an innovation promotion eco-system in these campuses. SAL Education has established IIC in June 2020. After the success of IIC 6.0, the Institution's Innovation Council meeting was held continuously in the year 2025 on an offline mode. The IIC member details for the academic year 2025 are as follows:

| Sr. No | Name of Member | Member Type (Teaching/ Nonteaching / External Expert) | Key Role/ Position assigned in IIC |
|--------|--------------------------------|---|------------------------------------|
